Living in a global society requires a new generation of thinkers and communicators. Spend three weeks this summer at Wake Forest University discovering how to change the way you learn, the way you think, and the way you lead. Together we will challenge the assumptions we hold of ourselves and of other cultures to become more effective global citizens.
LENS@Wake Forest is not your typical summer program.

A diverse cohort of students from across the U.S. and around the world will engage in a program of study based on global challenges. Wake Forest professors will teach you to explore complex issues and cultivate your potential to develop effective solutions. Engage in hands-on learning and inspiring conversations. Sharpen your critical writing and research skills.

Embrace new friendships, enjoy social activities, and become part of the college community. Experience the college environment at its best through one of our exceptional academic opportunities: Global Sustainability or Cultural Crossroads. The choice is yours!

Join us for challenging work, lively discussions and powerful creative energy. Serious learning. Serious fun.

FAST FACTS
